

9th Grade School Supply List for the 2009-10 School Year

There is no set school supply list for incoming Freshman, but the following suggestions will be useful in preparing for the start of the school year.

Students should have available for use a TI-83 or TI-84 calculator.

Students need to determine what system works best for them, it may be a folder and a notebook for each class or a 3-ring binder with dividers.

Individual teachers may have requests, such as a notebook for journaling, but it really is dependent on teacher and student preference.

All 9th graders will receive a student planner to use for organization and homework tracking.

Please come to class prepared with pens & pencils everyday!
